

# **Stop Foot Fungus, Ringworm, Jock Itch and Fungal Infections**

## **Commonly known as Athletes Foot**

Athlete's foot, also called tinea pedis, is a fungal infection of the foot. It causes peeling, redness, itching, burning, and sometimes blisters and sores.

Athlete's foot is a very common infection. The fungus grows best in a warm, moist environment such as shoes, socks, swimming pools, locker rooms, and the floors of public showers. It is most common in the summer and in warm, humid climates. It occurs more often in people who wear tight shoes and who use community baths and pools.

## **How Is Athlete's Foot Diagnosed?**

Not all itchy, scaly feet have athlete's foot. The best way to diagnose the infection is to have your doctor scrape the skin and examine the scales under a microscope for evidence of fungus.

### **What Causes Athlete's Foot?**

Athlete's foot is caused by a microscopic fungus that lives on dead tissue of the hair, toenails and outer skin layers. There are at least four kinds of fungus that can cause athlete's foot. The most common of these fungi is trichophyton rubrum.

Are you looking for a lasting cure to your problem. Well look NO FURTHER. I'm here to recommend the BEST Anti-fungal Balm out there. I have discovered that certain sprays don't last on the surface or infected area.

satisfied customers.....**

5.0 out of 5 stars

YES IT IS A WONDER CREAM ....WORDS CAN NOT DESCRIBE HOW IT CHANGED  
MY LIFE

By pascale g

*"Ok this is the best product I've ever spent money on. I have given a lot 4to5 stars on things at Amazon because I do a lot of research and so normally everything I purchase is pretty damn good. But after buying this product and using it in less than a week and seeing major healing Amazon need 10 star ratings! NO LIE....Ive had a fungal foot infection I caught from gardening . It kept spreading thinking it was going to go up my leg . I been fighting this monster for 13 years spending lots of money probably in thousands by now....."*

*Regaining my life back :)*

*"I am active-duty Air Force and I deployed to a very hot location in the Middle East this summer. Due to the humidity and the heat trapped in my uniform I developed extremely bad heat rash, eczema and a skin fungal infection. I tried many creams which helped temporarily but I was desperate to find something else. I was mainly stuck on steroid creams (prescribed by my military doctors) but those are not good in the long run. I found this balm on here and my skin is getting better and I also used the eczema cream from this same company. This is a true quality product you are buying. Not only with the ingredients but also with the packaging and the shipping and everything. I want to thank PURIYA for this cream as it is slowly changing my life for the better. I am feeling more confident each day about my skin and it's all thanks to this product. I have contacted the owner as well and they have incredible customer service. I will recommend this cream and this company to all my friends in the future."*
